

lifeskills GO

Release Guide: Version 2023.06.01
13th August 2023

lifeskills GO

Our Vision:

Every child has access to an effective, measurable and affordable social, emotional and physical education.

Our Mission:

To globally empower educators to prioritise, support and measure the development of social, emotional and physical literacy for our next generation of leaders.

We are pleased to announce the release of **Life Skills GO** Version 2023.06.01, which reflects our continuing commitment to meet the evolving needs of our Schools, Teachers and Students.

This release includes greater visibility over data for administrators, improvements to navigation and usability of the application for teachers and structural improvements to enhance user experience.

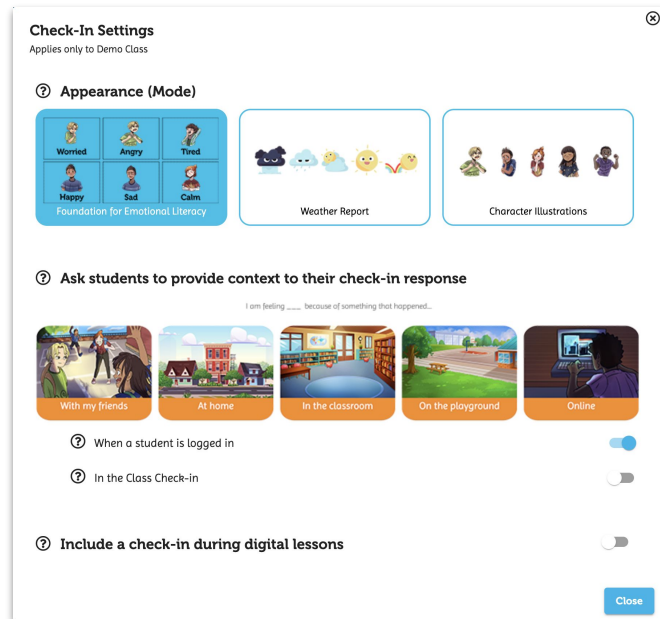

We strongly encourage your feedback so please always feel free to contact us at support@lifeskillsgroup.com.au with improvement suggestions or ideas.

Major Update to the Check-in Settings

We have completely redesigned the check-in settings modal, simplifying it so that it is clear what these settings will change during the student check-in. With clear visuals to indicate the functionality of the setting, this enhancement will allow educators to quickly customise the check-in to suit the needs of their class and know exactly what students will see the next time they access the check-in. Teachers can also hover over the question mark icon for more information.

To learn more about these settings and how they affect the check-in for students, please see this help video: [Customising the Check-in](#)

Changes to the Teacher Dashboard

We have made a few changes on the teacher dashboard to ensure that Life Skills GO is user friendly, accessible and provides increased visibility over student wellbeing data.

1. The **check-in settings** have been added to the dashboard so that teachers are able to customise how students complete check-ins without needing to go searching for them.
2. The **Download Class Logins** now exports a PDF that contains up to 6 QR / usernames and passwords per page so that teachers can distribute login credentials to their class in an environmentally conscious manner. This has replaced the previous download that would export individual login cards for students at one per page.
 - a. This download also includes login instructions for your students that you can print out or distribute on your LMS so that they can easily access Life Skills GO on individual devices.
3. **Journal entries** in the Activity Feed now appear highlighted in **Orange** to make it easier for teachers to identify when they are scrolling through the feed.

New Student Check-in Export for Admin

To provide administrators with greater visibility over every student check-in so that no student falls through the cracks, we have included an export of student check-ins to the executive report.

Based off the filters applied to the executive report; executive teams, wellbeing officers, counsellors and stage leaders can process the data to suit their needs, creating custom visualisations to present to staff.

Time

Minor Changes

- Removed the ID Code and Validate Class Check-in setting in order to rework this feature for additional functionality
- Improvements to platform responsiveness and speed to enhance the experience of all users.
- Structural updates are part of an ongoing process to help us provide you with a platform that is stable and secure. We routinely update our systems and processes to do the same so that our customers get the best service possible.
