Release Guide: Version 2023.09.01  
9th October 2023

# lifeskills GO

---

## Our Vision:

Every child has access to an effective, measurable and affordable social, emotional and physical education.

## Our Mission:

To globally empower educators to prioritise, support and measure the development of social, emotional and physical literacy for our next generation of leaders.

We are pleased to announce the release of **Life Skills GO** Version 2023.09.01, which reflects our continuing commitment to meet the evolving needs of our Schools, Teachers and Students.

This release includes changes to the student management page, an update to the student login information for school administrators and structural improvements to the lesson digital lessons.

We strongly encourage your feedback so please always feel free to contact us at [product@lifeskillsgroup.com.au](mailto:product@lifeskillsgroup.com.au) with improvement suggestions or ideas.

# Improved Student Management Dashboard

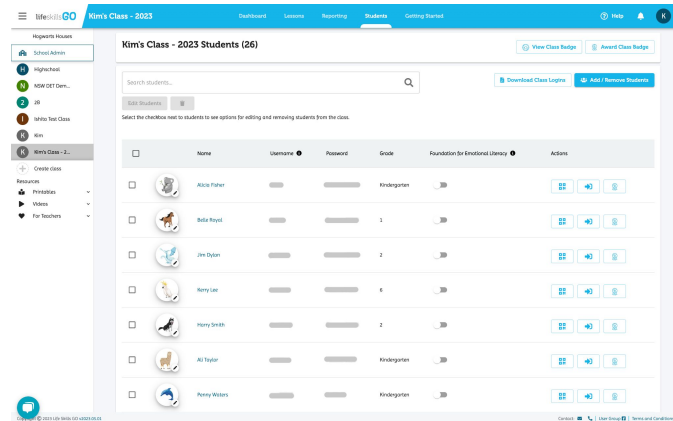

We have changed the layout and some functionality of the students page for teachers to support users in navigating and using the student management page in GO.

To simplify the process for distributing class logins, we have removed the additional views for accessing class logins. Now, to distribute login information, simply click download class logins.

Teachers can still digitally display individual QR codes by clicking view student QR code next to the student's name.

To edit or remove a student record, check the box next to the student(s) and click on the action at the top of the list. This enables teachers to make quick updates to their class.

Lastly, to align with other pages on Life Skills GO, teachers now access a student's profile by clicking on their name. Teachers can search for a student in their class using the search bar above.

Effort

# Change your students' profile image

We have heard from our teachers that changing a student's profile as a teacher was a time consuming process when changing the images for students that didn't have their own login.

We have added the ability for teachers to change the student's profile image from their dashboard making it easier for teachers to provide students with a unique profile image that represents them during the check-in. Simply click on the profile picture against the student to update the image.

**Benefits**

Frustration

# Updates to the download student login information for School Admin

To support school administrators in distributing login information to each class, we have updated the download for the 'View QR Codes' process which will now export a zip file that contains separated class details.

## Other updates

---

- Structural updates are part of an ongoing process to help us provide you with a platform that is stable and secure. We routinely update our systems and processes to do the same so that our customers get the best service possible.
- We have made some updates to the lessons to improve the loading speed and responsiveness of the lesson and reporting pages.
